

Senile, Corrupt, Alcoholic Nancy Pelosi Tells DNC to “*Shut-up*” and “*Stop Complaining About Her Destruction of the DNC...!*”

- Demand the DNC server copies. Seth Rich and many others saw the crimes in the .pst files. The public needs to see the .pst records too! Congress needs to subpoena the DNC servers.

By Andrea Loos

Senator Nancy Pelosi is known outside of California as: “*The Whore of Politics*”. She will sell anything political to the big Jewish owners of Facebook, Google and the Silicon Valley Cartel.

She holds her power, even though the entire nation hates her, because she can bank the bucks to rig the election in the biggest State in the Nation. If Silicon Valley and the big J’s didn’t sabotage every opponent who might run against her, she would be pretty easy to take out. A side-by-side shoot out of her corrupt deals and failures would make even Donald Duck look better than her in a fair fight.

Rigging elections is what Silicon Valley does, not “The Russians”. Pelosi gets her cash from the biggest digital election riggers in the business. John Doerr and Tom Perkins of Kleiner Perkins are both her secret money bags and the direct connection to “Russian Hackers”. John Doerr has over 85 Russian “Business Man” buddies.

She has allowed immeasurable crony politics and political corruption to infest our nation. She caused Solyndra. She ruined the Democratic party with her insider fixes. Pelosi sucks the big one when she isn’t sucking up to Google. As soon as the back-up copies of the DNC servers are revealed, there will be no doubt about her complicity.

Pelosi has presided over the largest failure of a political party in U.S. History!

Nancy Pelosi has left a swath of her own constituents bodies in her path. Over the years, fellow DNC and Northern California residents have asked her to solve problems or end corruptions that she, later was found to be the cause of. Pelosi's handlers, along with Pelosi, receive bribes and Google stock when they pull off each scheme for her.

Pelosi has destroyed thousands of companies and local jobs because she owned the interests in local competing industries. Even her Goat Hill Pizza Pizzagate ownership has cost local restaurants their income. In another case, a green energy company was put out of business by Pelosi in order to favor her covert profiteering in Solyndra, Tesla and Goldman Sachs.

San Francisco residents consider her to be a "face-lift devil-woman who will do anything to pad her bank account with profits from her crony political deals...". Other's call her "The white version of Willie Brown...".

Her only power lies in old rich Pacific Heights Jewish millionaires who are all almost dead and Silicon Valley Oligarchs who are all getting boycotted and fired. She is under investigation from every quarter. Her donor lists have all been hacked and her Bay Area DNC donors are getting doxxed and exposed in droves. She should leave politics now before she get's taken apart worse than Uber's Travis!

Democrats in shambles lost the prez election, house and senate, a state on the brink of bankruptcy, 0-5 in special elections, no leader/message other than hate. What a global embarrassment they are!
