

THE BIGGEST SECRET OF THE DEPARTMENT OF ENERGY “FAILURES”

While the taxpayers lost the largest amount of taxpayer money on any scheme in U.S. history, the DOE failures actually succeeded with the criminal plan they were staged to under-take.

The Department of Energy hand-outs were created to pay off campaign financiers.

Goldman Sachs, JP Morgan, Deutsche Bank and the Silicon Valley billionaires 1.) skimmed massive profits off the top of the cash transfers from the U.S. Treasury, 2.) hired themselves 3.) engaged in self-dealing 4.) took unjust rewards from tax evasions 5.) used the incoming windfall cash to pump stocks and skim those stocks in pump-and-dump campaigns 6.) after the companies crashed, the corrupt politicians and campaign financiers made profits off the tax write-offs.

It was planned, organized, not an accident and it was a Coup. It was the same kind of Coup that Smedley Butler exposed in the FDR Presidency. Consider this to have been “The Business Plot 2.0”
