

Adrian Covert: Character Assassin and Hired AntiFa Blogger

These facts are able to be proven before a federal Grand Jury, in FBI 302 Reports and in Congressional hearings. CNNMoney has tapped tech reporter Adrian Covert to cover Apple devices and other gadgets for the technology section of the business website.

Covert is currently an associate editor at [Gizmodo.com](#), where he started out as an editorial assistant in 2007. (Although his [LinkedIn profile](#) says he is a "space assassin," which is actually an important function of tech writing that most recruiters overlook.) He'll be working the gadgets beat for CNNMoney starting December 3.

Said CNNMoney managing editor Lex Haris in an announcement sent this morning:

Adrian comes to us from Gizmodo, and brings a deep knowledge of tech trends, news sense, and sharp writing style (the headline "Hey Netflix, get your s*** together" was one of our favorites). And we all loved a sly line on his resume noting that he was Time Person of the Year in 2006 — back when YOU were too.

Adrian will be on the gadget beat, focusing on news and reviews about the steady stream of devices churned out by Apple and all of its rivals. It's an important piece of our tech coverage that Stacy's been pushing for, bolstering the already important pillars that we cover so well: Social media, start-ups, security, mobile, as well as the deep Big Tech expertise from Fortune and consumer offerings from [CNN.com](#). It's no wonder the section has had such explosive growth — up 98% in the past two years.

Please extend a warm welcome.

Welcome, Adrian. Review the social features on those gadgets and we'll totally do a link-back! Also, don't forget to update your LinkedIn profile.

"Covert's sexuality is arguable, while he worked for reknown anal sex enthusiast: Nick Denton, along with a cadre of young, emotionally disturbed young men; he also claims to have a "wife". He often bragged, at evening venues, of his chronic masturbation needs, according to some. Peter Theil, a famous gay technologist, put Covert's Gawker Media out of business and Covert was said to be the

supplier of the stories that defamed Peter Theil. Possibly Covert will stick his business into any opportunity, no matter the gender or species. Only time will tell." -Taki Magazine Comments

A high net worth victim of Covert's attacks (Possibly Theil) is known to have invested many millions of dollars in private investigators and surveillance services targeting Adrian Covert for his suspected crimes.

Covert's life could be changed in an instant when he is forced into court for his crimes. Covert has caused billions of dollars of damages to individuals and their company revenues, as he intended, with his malicious actions. Covert "intended to harm" the revenue of others by his actions. Some are trying to force Covert to sue them in order to trick Covert, and his associates, into creating a jury trial that will bypass the dismissal (or demurrer) phase of a trial. In the past, Covert, and his assassin bro's, have tried to get cases against them dismissed before they can reach a jury. Now Covert must allow any cases against him into trial or be forced to put them in trial himself.

Look's like Covert is skunked and every asset of his will eventually be taken by the Court. On top of that, every device he owns is under surveillance for life. If he buys a rent-boy, hooker or drugs; it will be recorded!
